CALL FOR PAPERS

SPECIAL SESSION: MULTIMEDIA INTELLIGENCE AND SECURITY

In daily life, people are faced with a variety of information security and privacy issues to be resolved. Among these issues, computational intelligence can provide an effective and smart way to solve problems related to computer security, privacy, and stenography. This session aims at providing a forum to integrate the disciplines of intelligent computing, information security, biometrics, multimedia processing, communication with variety of applications and technologies. Contributions containing new insights and findings in this field are welcome.

TOPICS COVERED INCLUDE, BUT NOT LIMITED TO:

Multimedia processing/content understanding/communication

Multimedia semantic analysis/data mining

Internet/mobile multimedia sharing

Intelligent multimedia interface/services

Biological/medical image processing

Intelligent e-health based on multimedia analysis

Multimedia database management

Innovative multimedia systems or devices

Multimedia content security/copy detection/copyright protection, digital rights management

Biometric recognition, person identification from multimedia content

Intelligent surveillance

Sensitive content retrieval/filtering over Internet

Security and privacy in multimedia social networks

PAPER SUBMISSION

Each paper should follow the Springer LNCS / AISC paper format. Please submit papers by using the following EasyChair submission system:

https://easychair.org/conferences/?conf=sicbs2019

IMPORTANT DATES:

Paper Submission Deadline: October 1, 2019

Poster Submission Deadline: October 15, 2019

Paper Notification Date: October 25, 2019

Poster Notification Date: October 30, 2019

Camera-ready Deadline: December 20, 2019

SPECIAL SESSION ORGANIZERS:

Dr. Somya Agrawal (asomya@gm.cyut.edu.tw), Chaoyang University of Technology, Taiwan.

Dr. Chin-Feng Lee (lcf@cyut.edu.tw), Chaoyang University of Technology, Taiwan.
